Weak, Weary Women

Learn the Cause of Daily Woes and End Them

When the back aches and throbs,

When housework is torture,

When night brings no rest nor sleep,

When urinary disorders set in,

Women's lot is a weary one.

Doan's Kidney Pills are for weak kid-

neys.

Have proved their worth in Norway.

This is one Norway woman's testimony.

Mrs. W. J. Olmstead, 95 Main St., says:

"Four years ago my kidneys began to

give me trouble. They were weak. My

back ached so badly I could hardly get

through with my housework. Everything

I undertook to do seemed a drag for me.

I was dizzy and could see little star-like

spots before my eyes. My feet and an-

cles swelled. I read about Doan's Kid-

ney Pills being so good and got four boxes

and when I had finished taking them,

I felt as well as ever. The backache

ceased and my kidneys became regulated.

I have told a number of people about

Doan's Kidney Pills and never fail to

recommend them."

Price 60c, at all dealers. Don't simply

ask for a kidney remedy—get Doan's

Kidney Pills—the same that Mrs. Olm-

stead had. Foster-Milburn Co., Mfrs.,

Regardless of your ability to buy any car you choose, consider if you can find the justification of finer quality, in a costlier car than Hudson.

The Open Road

As I understand it, one notion that opponents of farmers' organizations have got to get out of their heads is that the farmer wants an artificially boosted price for his produce. What he's after is just an honest price and an open road to market. I know my opinion is sound, because I got it from

The COUNTRY GENTLEMAN

In next week's issue is a most helpful article which discusses plans for cooperative marketing, not only locally, but at the terminal market points. I wish all you farmers could read it.

Stuart O. Blythe writes it. He is probably as well informed as any man in the country on co-operatives of all sorts—he has just spent the better part of a year studying them in action everywhere. And he is only one of fifty investigators who keep Country Gentleman readers in close touch with every development toward more profitable farm methods. THE UNIVERSAL CAR

FORDSON

The Ford Motor Company have just issued a book called "The Fordson at Work." This book is given free. Call in and get one. If you cannot call, write and we will mail you one without charge. It is not what the Ford Motor Company says about the Fordson Tractor, but what the army of users have to say. This book voices the hardest kind of practical experience. It shows in illustration the Fordson Tractor at actual work along some ninety different lines of activity. It shows in these illustrations the wonderful versatility and utility of the Fordson Tractor. Shows it to be, beyond all question, the one bit of machinery that is a necessity, not only on the farm, but along many lines of commercial business; especially does it show up the Fordson as a valuable servant on the farm. With it the farmer is relieved of the hard work; because he can take advantage of the weather in preparing his seed bed; he can do it at the right time; the same is true when it comes to harvesting. It solves, to a great extent, the problem of scarcity of labor.

With its wonderful, reliable power, it brings to the farm home all the conveniences, in the way of running water in the house, electric lights, operation of the washing machine, churning, separating the cream from the milk; it assumes and takes to itself the drudgery of farm life both in the field and in the house and it is only a matter of a few years until it will be as universal in its service on the farm as is the farmer himself. It will become a part of farm life; a beneficial part; a profitable part. Get order in for there's a rush coming.

THREW AWAY CRUTCHES

Mrs. Fannie Johnson, a lifelong resident of Troy, N. Y., says:
"For years I suffered as I believe no one ever suffered. The joints and muscles of my legs and arms were so sore that to bend the elbows or the knees would almost kill me. I had to get crutches so as to be able to move when I was not in bed. Medicine did not have any effect on me. I decided it was hopeless to expect any relief and thought that my suffering would end only with death. Then one day I read that a man in Binghamton had thrown his crutches away after taking Goldine, and I thought I might be fortunate enough to get the same results from the medicine. I bless the day I got a bottle of Goldine No. 2. I shall never forget the improvement in me, but will say that I can walk good now, can do my housework and can move my arms and legs without pain. I have even kept my crutches because I am sure that with Goldine in the house I shall never again be troubled with rheumatism."

The Lure of BIRTH STONES

APRIL

It is storied that the God of the Mines called his courtiers to bring him all known gems. He found them to be of all colors and thus and varying hardnesses, such as the ruby, emerald, sapphire. He took one of each, he crushed them; he compounded them; and said, "Let this be a gem that will combine the beauty of all; yet it must be pure, and it must be invincible." He spoke; and lo! the evolution of the diamond; bringing to the April-born the virtues of Sir Galahad, the while preserving peace and tranquility.

JOY BROUGHT INTO HOME

By Lydia E. Pinkham's Vegetable Compound, Restoring Mrs. Benz to Health

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We have had six children die almost at birth. From one hour to nineteen days is all they have lived. As I was going to have another, I took a dozen bottles of your Vegetable Compound and I can say that it is the greatest medicine on earth, for this baby is now four months old and a healthier baby you would not want. I am sending you a picture of her. Everybody says, 'That is some healthy looking baby.' You have my constant to show this letter. Mrs. C. W. Benz, 181 8th Ave., Altoona, Pa.

Every woman who suffers from any ailments peculiar to her sex, as indicated by backaches, headaches, bearing-down pains, irregularities, nervousness and "the blues," should not rest until they have given Lydia E. MY DAYS AND NIGHTS IN THE HOSPITAL

No. 2
On the 23d of November, 1920, I was taken to the Maine General Hospital at Portland. The crisis of my trouble had arisen suddenly and could not be treated by the local physicians. When informed that I must have an operation I remember of asking if it could not be performed at home. The answer was in the negative. Then I knew it was a very serious situation for me and prepared for the worst. When I went away I had little or no hope of ever seeing my wife and child again. I must have been in the hospital for some time. Of course I had little idea what was in store for me, but the actual experience after the operation, came no, where near what my imagination had pictured it was most likely to be.

I had to be treated soon after I reached the hospital. Doctor Mitchell happened to be there and found no difficulty in relieving me at once. He struck me as being a most skillful surgeon, the master of his art. It was necessary for me to have a period of preparation before any operation could be performed, and this is frequently done in two parts—the first allowing the other after a week or such a matter. This was the case with Hon. John P. Swasey, who had an operation of the same kind, last summer. He wrote me since my discharge from the hospital that he felt as well as he did at the time he went in, and gave me great encouragement of ultimate recovery and good health.

I had a fairly good room on one of the lower floors facing west, but I could not see out of the window from my cot. Had no regular nurse at that time. On touching a button near the head of my cot any one who happened to be within hearing would answer the call. For the two weeks I was in that room I became acquainted with a number of the nurses. I liked them all but one. There was the "Good Joey," Miss Josephine Morin—motherly, pleasant, and most agreeable all the time. What a fine attendant she would be for a fretful and peevish old woman, or man, either, for that matter. Her very presence would still their nerves and make them restful. And how soothing her ways would be for a little sick child. Ah, Joey, you were not around much, but I could see your good qualities all thought I knew what you were best fitted for. I learned that Harry Buck of Buckfield had a daughter, Miss Carrie Buck, in one of the wards. Her course of instruction was to end the last of February. I saw her once before my operation and twice afterwards. I remember the day I called her "little Miss Buck." She is a black-eyed girl who will make a fine nurse.

"Goldy," Miss McPheters, I believe her name was, seemed to be always on duty, and faithful as the sun. I think her home was somewhere East. A Miss Gibson from Fairfield and Miss Hutchins from Fryeburg I only just got acquainted with before I was operated upon and taken up stairs where I had a permanent nurse. They were fine young ladies and among the most intelligent of the nurses. Whether they were special-izing for that thing I did not learn. No one could help liking them. Little Miss Aura Tracy, "the pink of the lot," had black eyes and is very prepossessing. One would like her at first sight. I saw in fact very little of her. The nurses I saw the most of up stairs I will mention in a later sketch.

Dr. Ralph Milliken, "the orderly," became a great favorite before I left the hospital. He is a large, well proportioned man, florid complexion and smooth shaven. He had seen service in the Great World War, had unbounded confidence in Doctor Mitchell, and can do anything short of critical operation. I familiarly called him "Governor" Milliken. In dressing incisions and wounds, I don't believe there is his superior anywhere. The hospital is fortunate to have him on duty. There will always be a warm regard for him as long as I live.

Delayed Mooshead Letter

Rockwood, Maine, Feb. 28, 1921.
"I want a Norway town report for the year just ended, and am willing to pay for same if necessary. Can you send me one?"

Great winter at Mooshead—as elsewhere. We had some three feet or more snow up to Jan. 1st, but have had very little since. Don't need it. Steady cold, no winds and no very cold weather. (Only once 40 below.) Ice about 12 to 14 inches compared with 26 last winter. No frost in ground so we are content to dream of the day, about the last of April (?) when we can slide the canoe into the water.

Ice fishing, the very best. Two of us got the limit yesterday up at "Hend's" 30 pounds of square tails and lakers, (togues). One trout, our best, weighed three and one-half pounds. Oh, Boy! We were some pleased with him. We had 12 fish, 6 lakers and 6 trout. Biggest laker, 6 lbs. Crawford Johnson had about 9 lbs. Some sport.

If you were as good a winter sport as you are in summer, why, I would ask you to come to my shack and eat bannock and beef (?) steak (shot last fall in open season) with me for a while and we would snail out a few. But when a man gets where he feels he is most a hundred years old, why, I suppose he prefers the seclusion the "Weary Club" affords, and his whittling. Say, I feel that way some mornings, but it wears off. Tell Mell and Jim that it may be sport to pull innocent little pickerel out of Norway Pond, to get the old blood to tingling, a nifty three pound red spot or a good seven pound salmon, wins.

The town report was promptly forwarded and no doubt he commenced editing our wretched extravagance in the expenditure of public funds.—Editor.

The telephone linemen completed the work in the village, Monday, and went to Oxford, Tuesday, for a long job changing circuits.

Ed Kneland has a crew shingling his buildings on Crescent street.

Dennis Pike, who has been spending several weeks at St. Petersburg, Fla., is expected home about April 10. He has been visiting A. R. Clark the past few weeks and inspecting the lumber business as carried on in the south.

Road Commissioner Harry Lovejoy has his crew smoothing down the rough streets, and filling in muddy spots with gravel.

The Rag dances arranged for the Strained Mountain Club house, April 1, was postponed owing to bad traveling. Davis orchestra has been engaged for a date to be settled upon later.

Unicorn Dairy Ration

"You can fool a man, but you can't fool his cow!"

It is not the cost of a feed that is killing the farmer and reducing his profits. The real source of his trouble is his failure to run his cows to full capacity and feeding them right and decently. Cows that could give 40 lbs. of milk are running on a 20-lb. basis, and cows that could make 30 lbs. are running on 15.

The reason dairymen continue to use UNICORN is because they get enough more milk and enough more profit out of it to make it worth their while.

NORWAY AND VICINITY

Annual meeting of the Norway Fish and Game Association will be held at the Beals Tavern, Monday evening, April 18, at 7:30 o'clock.

The Norway-Paris Band met at Engine House Hall Monday evening to reorganize and plan for the summer campaign. No meetings were held during cold weather for various reasons, but from now on rehearsals each week will be in order. Allie Cote will lead as last season. Probably their first public appearance will be on Memorial Day, afterward open air concert may be given if the citizens will offer a little encouragement along financial lines. Expense is necessary to keep the music up to date and a little boosting in town would help the boys amazingly. The ladies of the Congregational Circle will hold a food sale at the A. L. Clark store, Friday, April 15, at 2 o'clock. Sale will include all kinds of pastries, fish cakes, potato salad and marmalade.

Miss H. M. Taylor is in Boston for a few days.

Mr. and Mrs. Harry V. Cole observed the fourth anniversary of their marriage, Friday evening and invited Mr. and Mrs. Elton L. Brown and Mr. and Mrs. Charles E. Bradford to a dinner at Mrs. John F. Sampson's. A fine menu was served. Afterward the party continued the evening's enjoyment by attending the play and dance at Norway Lake.

Mary Gauthier of Rumford was in town Tuesday and Wednesday.

F. Robert Seavey has returned from a sojourn at St. Petersburg, Fla., feeling fine and anxious to open Beals Tavern when Tony can get the house into shape. Bob is some hunter, and a regular snake killer, too. A diamond rattler skin 7 1/2 feet long, tipped with 11 rattles and a button is on exhibition in the Beals Tavern office to prove Bob's courage. The hunter used a club to destroy the venomous reptile measuring better than 6 feet directly after death. Bob also slew a ground rattler measuring about 15 inches long and has the dried skin to prove that fact.

Gordon Noyes and two friends from the Oxford Spring Sanatorium were in town Tuesday trying the fishing at Lake Penesseewassee. George "Shaw" Noyes accompanied the party on their trip. Donald B. Partridge will deliver the Memorial Day address at Hebron in the forenoon and at South Paris in the afternoon.

Dennis Pike, who arrived Saturday from St. Petersburg, Fla., suffered from the effects of a tempestuous sea voyage from Savannah. A big storm was experienced, and several days rough weather destroyed all pleasure and made their home sweet home in Norway a mighty nice place. Aside from after effects of a rolling ship, Mr. Pike's health is much improved.

Lewis W. Hazelton is employed at Walker's livery stable in place of Neil Cross, who is working for Mr. Walker at the Norway Auto and Sales Co. garage. Winfield B. Brown of North Waterford was in town with his automobile Tuesday and found the roads in good condition with a few exceptions. He has sold his store at East Stoneham to Virgil Littlefield and will devote his attention to the mill and lumber business at West Stoneham. Considerable lumber saved the past winter will be hauled to Norway, this with other work will keep him busy until next fall.

Mrs. Florence Fuller, who has been ill the past few months at Mrs. Alice Marston's, is able to go out doors and is gaining slowly.

Regular meeting of the Victory Camp, Royal Neighbors of America, at Moose Hall, next Wednesday evening. Supper will be served at 6:45 with Mrs. Alice Blaquiere and Mrs. Ralph Richardson in charge. The District Deputy will be present and a report of the convention will be given by the delegate attending. It is important that every member should be present.

Melvin Smith, recently discharged from the 5th Field Artillery and home from Camp Travis, Texas, has organized the Norway Independents, and is manager. The following are the players: Albert Payne, C; Carl Labroke, P; Albert Snow, 1b; Mel Smith, 2b; "Kit" Frost, ss; Dick Sargent, 3b; A. Olmstead, cf; "Snake" Ledger, rf; Bert Hawley, lf.

The little steel bridge crossing Penesseewassee stream on Home street has collapsed and vehicles will be unable to pass until a new bridge can be built. Freeman Smith and Son are laying a cement floor at the Culbert & Grover Garage in Welchville and putting in a cement block cellar wall for Robert F. Bickford.

Carlton Young, who enlisted in the army from Norway a year ago, has been honorably discharged and is located on a farm in Lovell. He passed his year's enlistment at Camp Devens until transferred to the 5th Field Artillery, 2nd Division, at Camp Travis, San Antonio, Texas.

The small triangular grass plot, corner Bridge and Water streets, is being improved into a small park. Years ago a hand stand degenerated to an unsightly pile on this spot. Later a stand pipe for the street sprinkler went on duty, which only slightly improved the appearance of the corner. A neat green sward or flower bed will make a change for the better.

There will be no work at the regular meeting of Lake Temple Pythian Sisters, Tuesday evening, as was expected. The candidates are unable to attend. Mr. and Mrs. Wilfred Kimball of Dixfield visited their brother, Leon Kimball, and family, Wednesday. They are on their honeymoon, having been married at Dixfield Tuesday.
